PROFESSIONAL SUMMARY

I'm a Data Scientist specializing in AI and machine learning, leveraging Python, Langchain, and FastAPI to build scalable systems, with experience as an AI Intern at Tata Groups, driving innovative solutions and data-driven insights.

PROFESSIONAL EXPERIENCE

AI Intern

Tata Groups, Mumbai • February 2025 - May 2025

Designed and implemented AI-powered solutions using Python, Langchain, and AI-Agents, and built scalable APIs with NextJs and FastAPI, enhancing automation capabilities for Tata Groups.

AI and Data Science Intern

National Institute of Technologt, Rourkela • May 2024 - July 2024

I developed predictive models using Python, TensorFlow, and Scikit-Learn, analyzing data with Numpy, Pandas, and Matplotlib to drive insightful decisions.

NOTABLE PROJECTS

AI-Powered Resume Builder

Developed an AI-powered resume builder utilizing Python, Streamlit, and Groq API, allowing users to create customized resumes with automated formatting and content suggestions, while integrating with Firebase for seamless data storage and retrieval capabilities.

Technologies: Python, Streamlit, Firebase, Groq API

Crop and Fertilizer Recommendation System

Developed a Crop and Fertilizer Recommendation System using Python, Streamlit, and Scikit-Learn, providing personalized crop and fertilizer suggestions based on soil and climate inputs, enhancing farming efficiency and reducing waste through data-driven decision making.

Technologies: Python, Streamlit, Machine Learning, Scikit-Learn
